NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS  
Quarter II 2026**1. CORPORATE INFORMATION**

Hoang Anh Gia Lai Agricultural Joint Stock Company ("the Company") is a joint stock company incorporated under the Law on Enterprises of Vietnam pursuant to Enterprises Registration Certificate ("ERC") No. 5900712753 issued by the Department of Planning and Investment of Gia Lai Province (currently known as Department of Finance of Gia Lai Province) on 26 May 2010 and other twenty one (21) amended ERCs.

The Company's shares are traded on the Unlisted Public Company Market ("UPCOM") in accordance with Decision No. 4111/TB-SGDHN and Decision No. 974/QD-SGDHN dated 10 September 2024 issued by the Hanoi Stock Exchange ("HNX").

The current principal activities of the Company and its subsidiaries ("the Group") are planting and trading fruits, rubber latex and other plants; generating and trading seeding; afforesting and related materials; cow breeding; constructing industrial and civil projects.

The Company's registered head office is located at No. 15, Truong Chinh Street, Pleiku Ward, Gia Lai Province, Vietnam.

**2. BASIS OF PREPARATION****2.1 Applied accounting standards and system**

The consolidated financial statements of the Company and its subsidiaries (the "Group"), expressed in thousands of Vietnam Dong ("VND'000"), are prepared in accordance with the Vietnamese Enterprise Accounting Regime issued under Circular No. 99/2025/TT-BTC dated 27 October 2025 and Vietnamese Accounting Standards issued by the Ministry of Finance, including:

- ▶ Decision No. 149/2001/QD-BTC dated 31 December 2001 on the Issuance and Promulgation of Four Vietnamese Accounting Standards (Series 1);
- ▶ Decision No. 165/2002/QD-BTC dated 31 December 2002 on the Issuance and Promulgation of Six Vietnamese Accounting Standards (Series 2);
- ▶ Decision No. 234/2003/QD-BTC dated 30 December 2003 on the Issuance and Promulgation of Six Vietnamese Accounting Standards (Series 3);
- ▶ Decision No. 12/2005/QD-BTC dated 15 February 2005 on the Issuance and Promulgation of Six Vietnamese Accounting Standards (Series 4); and
- ▶ Decision No. 100/2005/QD-BTC dated 28 December 2005 on the Issuance and Promulgation of Four Vietnamese Accounting Standards (Series 5).

Accordingly, the accompanying the interim consolidated financial statements, including their utilisation are not designed for those who are not informed about Vietnam's accounting principles, procedures and practices and furthermore are not intended to present the interim consolidated financial position and results of the interim consolidated operations and the interim consolidated cash flows in accordance with accounting principles and practices generally accepted in countries other than Vietnam.

**2.2 Applied accounting documentation system**

The Group's applied accounting documentation system is the General Journal system.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS (continued)  
Quarter II 2026**2. BASIS OF PREPARATION (continued)****2.3 Fiscal year**

The Group's fiscal year applicable for preparing its consolidated financial statements starts on 1 January and ends on 31 December.

The interim consolidated financial statements for Quarter II/2026 are prepared from 1 April 2026 to 30 June 2026.

**2.4 Accounting currency**

The Company's accounting currency is VND.

The Group's interim consolidated financial statements are prepared in thousands of Vietnam Dong ("VND'000").

**2.5 Basis of consolidation**

The Group's interim consolidated financial statements comprise the financial statements of the Company and its subsidiaries for the period ended 30 June 2026.

The interim financial statements of subsidiaries are prepared for the same reporting period as the parent company, using consistent accounting policies. Adjustments are made for any differences in accounting policies that may exist to ensure consistency between the subsidiaries and the Company.

All intra-company balances, income and expenses and unrealised gains or losses resulting from intra-company transactions are eliminated in full.

The subsidiaries are consolidated from the date of acquisition, being the date on which the Group obtains control and continued to be consolidated until the date that such control ceases. Where there is a loss of control over the subsidiaries, the interim consolidated financial statements still include results for the period of the reporting period during which the Group has control.

Impact of change in the ownership interest of a subsidiary, without a loss of control, recorded in accumulated losses.

**3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES****3.1 Cash**

Cash comprises cash on hand and cash in bank.

**3.2 Receivables**

Receivables are presented in the interim consolidated financial statements at the carrying amounts due from customers and other debtors, after provision for doubtful receivables.

The provision for doubtful debts represents amounts of outstanding receivables at the interim consolidated balance sheet date that are doubtful of being recovered. Increases or decreases to the provision balance are recorded as general and administrative expenses in the interim consolidated income statement. When bad debts are determined as unrecoverable and the accountant writes off those bad debts, the differences between the provision for doubtful receivables previously made and historical cost of receivables are included in the interim consolidated income statement.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS (continued)  
Quarter II 2026

**3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**3.3 Inventories**

Inventories are measured at their historical costs. The cost of inventories comprises costs of purchase, costs of conversion (including raw materials, direct labor cost, other directly related cost, and manufacturing general overheads allocated based on the normal operating capacity) incurred in bringing the inventories to their present location and condition.

In case the net realizable value is lower than the original price, it must be calculated according to the net realizable value.

Net realisable value represents the estimated selling price in the ordinary course of business less the estimated costs to complete and the estimated costs necessary to make the sale.

The perpetual method is used to record inventories, which are valued as follows:

- |                                 |   |                                                       |
|---------------------------------|---|-------------------------------------------------------|
| Raw and construction materials, | - | Cost of purchase on a weighted average basis.         |
| tools and supplies and          | - | Cost of direct materials and labour plus attributable |
| merchandise goods               |   | overheads based on the normal level of activities.    |

Finished goods and work-in-process

*Provision for obsolete inventories*

An inventory provision is created for the estimated loss arising due to the impairment of value (through diminution, damage, obsolescence, etc.) of raw materials, finished goods and other inventories owned by the Group, based on appropriate evidence of impairment available at the balance sheet date.

Increases or decreases to the provision balance are recorded into the cost of goods sold account in the consolidated income statement. When inventories are expired, obsolescence, damaged or become useless, the difference between the provision previously made and the historical cost of inventories are included in the interim consolidated income statement.

**3.4 Tangible fix assets**

Tangible fixed assets are stated at cost less accumulated depreciation.

The cost of a tangible fixed asset comprises its purchase price and any directly attributable costs of bringing the tangible fixed asset to working condition for its intended use.

Expenditures for additions, improvements and renewals are added to the carrying amount of the assets and expenditures for maintenance and repairs are charged to the interim consolidated income statement as incurred.

When tangible fixed assets are sold or retired, any gain or loss resulting from their disposal (the difference between the net disposal proceeds and the carrying amount) is included in the interim consolidated income statement.

**3.5 Intangible fix assets**

Intangible fixed assets are stated at cost less accumulated amortisation.

The cost of an intangible fixed asset comprises its purchase price and any directly attributable costs of preparing the intangible fixed asset for its intended use.

Expenditures for renewals and improvements are added to the carrying amount of the intangible fixed assets and other expenditures are charged to the interim consolidated income statement as incurred.

When intangible fixed assets are sold or retired, any gain or loss resulting from their disposal (the difference between the net disposal proceeds and the carrying amount) is included in the interim consolidated income statement.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS (continued)  
Quarter II 2026

**3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**3.5 Intangible fix assets (continued)**

*Land use rights*

Land use rights are recorded as intangible fixed assets representing value of the right to use the land acquired or leased by the Group. The useful life of land use rights are assessed either definite or indefinite. Accordingly, land use rights with definite useful life representing the land lease are amortised over the lease term while land use rights with indefinite useful life are not amortised.

**3.6 Biological Assets**

*Immature livestock for periodic products:* Recognized at actual costs incurred from the date of formation until they reach the productive stage (ready for exploitation).

*Mature livestock for periodic products:* Stated at cost less accumulated depreciation.

The cost of mature livestock for periodic products comprises the purchase price and any costs directly attributable to bringing the biological assets to their intended working condition.

When mature livestock for periodic products are sold or disposed of, any gain or loss arising from the disposal (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is recognized in the interim consolidated income statement.

**3.7 Depreciation and amortisation**

Depreciation of tangible fixed assets and amortisation of intangible fixed assets are calculated on a straight-line basis over the estimated useful life of each asset as follows:

|                                               |               |
|-----------------------------------------------|---------------|
| Buildings & structures                        | 8 - 50 years  |
| Machinery & equipment                         | 5 - 15 years  |
| Means of transportation & transmit instrument | 6 - 20 years  |
| Office equipment                              | 4 - 5 years   |
| Perennial trees                               | 10 - 20 years |
| Software system                               | 10 years      |
| Livestock                                     | 8 years       |
| Other assets                                  | 10 -15 years  |

*Rubber plantations*

Management estimated the condition to record plantations as fixed assets and starting depreciation when the suitable portion of the plant for exploitation (trunk circumference at one meter from the ground reaches 45cm and the bark thickness at one meter from the ground reaches 6mm) are over 70 percent of the alive plantation.

*Fruit plantations*

Management estimated the condition to record plantations as fixed assets and starting depreciation when rate of production has reached over 50 percent of the plantation from harvesting processing year.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS (continued)  
Quarter II 2026**3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)****3.7 Depreciation and amortisation (continued)***Depreciation of perennial trees*

Depreciation of rubber plantations is calculated in accordance with Official Dispatch No. 1937/BTC-TCDN on 9 February 2010 issued by Department of Business Finance - Ministry of Finance providing guidance on depreciation of rubber plantations and Decision No. 221/QD-CSVN issued on 27 April 2010 by Vietnam Rubber Group, providing guidance on the depreciation rates applicable to rubber plantations within twenty (20) years of exploitation cycle.

Depreciation of banana plantations is calculated in accordance with Decision No. 0106/QD-HAGL Agrico dated 1 June 2020 of Management, providing guidance on depreciation of banana plantations over their exploitation cycle.

Depreciation of mango plantations is calculated in accordance with Decision No. 0101/18/QD-HAGL Agrico dated 2 January 2018 of Management, providing guidance on depreciation of mango plantations over their exploitation cycle.

Depreciation of other plantations is appropriately calculated in accordance with other relevant decisions of the management.

The details are as follows:

| Year             | Rate (%)           |                    |                   |
|------------------|--------------------|--------------------|-------------------|
|                  | Rubber plantations | Banana plantations | Mango plantations |
| First year       | 2.50               | 10.00              | 0.30              |
| Second year      | 2.80               | 10.00              | 1.00              |

| Fifteenth year   | 5.50               |                    | 5.80              |
| Sixteenth year   | 5.40               |                    | 5.80              |
| Seventeenth year | 5.00               |                    | 5.80              |
| Eighteenth year  | 5.50               |                    | 5.80              |
| Nineteenth year  | 5.20               |                    | 5.80              |
| Twentieth year   | Carrying amount    |                    | Carrying amount   |

**3.8 Construction in progress**

Construction in progress represents accumulated costs attributing directly to the construction and development of the Group's buildings and structures, factories, rubber and other plantations which have yet to be completed as at the balance sheet date.

*Factories, buildings and structures*

Costs include attributable costs related directly to the construction of the Group's factories, buildings, and structures such as construction costs, survey and designing fees and other related costs.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS (continued)  
Quarter II 2026**3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)****3.8 Construction in progress (continued)***Plantations*

Plantation costs include costs directly attributable to the rubber, fruits and other plantations such as survey, land compensation, land clearance, seeds, fertilizers, transportation of seeds and other materials, workers' wages, roads and fences, fire prevention and security guards, anti-botanic drugs and other related costs.

*Livestock project*

Includes costs directly related to the development livestock project.

**3.9 Borrowing costs**

Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

Borrowing costs are recorded as expenses during the period in which they are incurred, except to the extent that they are capitalized as explained in the following paragraph.

Borrowing costs that are directly attributable to the acquisition, construction or production of a particular asset are capitalised as part of the cost of that asset. Capitalisation of borrowing costs is suspended during the year in which active development of the asset is interrupted unless such interruption is considered necessary. Capitalisation of borrowing costs is ceased when substantially all the activities necessary to prepare the qualifying asset for its intended use or sale are complete.

**3.10 Deferred expenses**

Deferred expenses are reported as short-term or long-term Deferred expenses on the consolidated statement of financial position which mainly include cost of tools and supplies, prepaid land rentals and short-term fruit plantations. They are amortised over the year for which the amounts are paid or the year in which economic benefits are generated in relation to these expenses.

The following types of expenses are recorded as long-term Deferred expenses and are amortised to the interim consolidated income statement:

- ▶ Prepaid land rental is amortised over the period of land lease;
- ▶ Tools and supplies with large value issued into production and amortised no more than three (3) years and recognised in the interim consolidated income statement;.

**3.11 Investments***Investment in an associate*

The Group's investment in an associate is carried at cost and accounted for using the equity method of accounting. An associate is an entity in which the Group has significant influence and which is neither a subsidiary nor joint venture. The Group generally deems it has significant influence if it has over 20% of the voting rights.

Under the equity method, the investment is carried in the interim consolidated statement of financial position at cost plus post acquisition changes in the Group's share of net assets of the associate. Goodwill arising on the acquisition of the associate is included in the carrying amount of the investment. Goodwill is not amortised and is subject to annual review for impairment. The interim consolidated income statement reflects the share of the post-acquisition results of the operation of the associate.

The share of post-acquisition profit of the associate is presented on the face of the consolidated income statement and its share of post-acquisition movements in reserves is recognised in reserves. The cumulative post-acquisition movements are adjusted against the carrying amount of the investment. Dividend sharing receivable from associates reduces the carrying amount of the investment.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS (continued)  
Quarter II 2026**3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)****3.11 Investments (continued)***Investment in an associate (continued)*

The financial statements of the associate are prepared for the same reporting period and use the same accounting policies as the Group. Where necessary, adjustments are made to bring the accounting policies in line with those of the Group.

*Investments in another entity*

Investments in another entity are stated at their acquisition costs.

*Provision for investments in entities*

Provision of the investment is made when there are reliable evidence of the diminution in value of those investments at the balance sheet date.

Increases or decreases to the provision balance are recorded as finance expenses in the interim consolidated income statement.

**3.12 Payables and accruals**

Payables and accruals are recognised for amounts to be paid in the future for goods and services received, whether or not billed to the Group.

**3.13 Provisions**

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

**3.14 Earnings (losses) per share**

Basic earnings (losses) per share amounts are calculated by dividing net profit (loss) after tax for the year attributable to ordinary shareholders of the Company (after adjusting for the bonus and welfare fund) by the weighted average number of ordinary shares outstanding during the period.

Diluted earnings (losses) per share amounts are calculated by dividing the net profit (loss) after tax attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the year and the weighted average number of ordinary shares that would be issued on conversion of all the dilutive potential ordinary shares into ordinary shares.

**3.15 Foreign currency transactions**

Transactions in currencies other than the Group's reporting currency of VND are recorded at the actual transaction exchange rates at transaction dates which are determined as follows:

- Transaction resulting in receivables are recorded at the buying exchange rates of the commercial banks designated for collection;
- Transactions resulting in liabilities are recorded at the selling exchange rates of the transaction of commercial banks designated for payment;
- Capital contributions are recorded at the buying exchange rates of the commercial banks designated for capital contribution; and
- Payments for assets or expenses without liabilities initially being recognised are recorded at the buying exchange rates of the commercial banks that process these payments.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS (continued)  
Quarter II 2026**3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)****3.15 Foreign currency transactions (continued)**

As at 30 June 2026, the Group has converted the financial statements of subsidiaries using USD and KHR at the following exchange rates:

- USD/VND: Average telegraphic transfer buying and selling rate: 26,286 (31 December 2025: asset rate: 26,203; liability rate: 26,377); and
- KHR/VND: Average telegraphic transfer buying and selling rate: 6.64 (31 December 2025: asset rate: 6.68; liability rate: 6.94).

At the end of the interim accounting period, monetary items denominated in foreign currencies are revalued using the actual exchange rates as of the date of the interim consolidated statement of financial position based on the following principles: Assets and liabilities are converted into Vietnam Dong at the average telegraphic transfer buying and selling rate of the commercial bank(s) where the Group frequently conducts transactions.:

- Monetary assets are translated at buying exchange rate of the commercial bank where the Group conducts transactions regularly; and
- Monetary liabilities are translated at selling exchange rate of the commercial bank where the Group conducts transactions regularly.

All foreign exchange differences incurred are taken to the interim consolidated income statement.

Conversion of the financial statements of foreign operations which maintains its accounting records in other currency rather than the Group's accounting currency of VND for consolidation purposes is as follows:

- Assets and liabilities are converted into VND using the average buying and selling rates, respectively, of the commercial bank where the Group maintains its accounts at the end of the interim accounting period;
- Capital contributions are recorded at the actual exchange rates of the commercial banks designated for capital contribution; and
- Revenues, other income and expenses are converted into VND by using the average exchange rates during the year; and;

All foreign exchange differences resulting from the conversion of financial statements of the subsidiary for consolidation purpose are taken to the "foreign exchange difference reserve" on the interim consolidated statement of financial position and charged to the interim consolidated income statement upon the disposal of the investment.

**3.16 Appropriation of net profits**

Net profit after tax (excluding negative goodwill arising from a bargain purchase) is available for appropriation to shareholders after approval in the annual general meeting, and after making appropriation to reserve funds in accordance with the Company's Charter and Vietnam's regulatory requirements.

**3.17 Revenue recognition**

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable, excluding trade discount, rebate and sales return. The following specific recognition criteria must also be met before revenue is recognised:

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS (continued)  
Quarter II 2026**3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)****3.17 Revenue recognition (continued)***Sale of goods*

Revenue is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer, usually upon the delivery of the goods.

*Construction contracts*

Where the outcome of a construction contract can be estimated reliably and certified by customers, revenue and costs are recognised by reference to the stage of completion of the contract activity at the balance sheet date. Variations in contract work, claims and incentive payments are included to the extent that they have been agreed with the customer.

Where the outcome of a construction contract cannot be estimated reliably, contract revenue is recognised to the extent of contract costs incurred that it is probable to be recoverable. Contract costs are recognised as expenses in the year in which they are incurred.

*Rendering of services*

Revenue from rendering of services is recognized when the services are rendered.

*Interest*

Interest is recognised as the interest accrues (taking into account the effective yield on the asset) unless collectability is in doubt.

**3.18 Taxation***Current income tax*

Current income tax assets and liabilities for the current and prior years are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted as at the interim balance sheet date.

Current income tax is charged or credited to the interim consolidated income statement, except when it relates to items recognised directly to equity, in which case the current income tax is also dealt with in equity.

Current income tax assets and liabilities are offset when there is a legally enforceable right for the Group to offset current tax assets against current tax liabilities and when the Group intends to settle its current tax assets and liabilities on a net basis.

*Deferred tax*

Deferred tax is provided using the liability method on temporary differences at the interim balance sheet date between the tax base of assets and liabilities and their carrying amount for interim consolidated financial statements purposes.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- ▶ Where the deferred tax liability arises from the initial recognition of an asset or liability in a transaction which at the time of the related transaction affects neither the accounting profit nor taxable profit (or loss); and
- ▶ In respect of taxable temporary differences associated with investments in subsidiaries and associates where timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS (continued)  
Quarter II 2026**3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)****3.18 Taxation (continued)**

Deferred tax assets are recognised for all deductible temporary differences, carried forward unused tax credit and unused tax losses, to the extent that it is probable that taxable profit will be available against which deductible temporary differences, carried forward unused tax credit and unused tax losses can be utilised, except:

- ▶ where the deferred tax asset in respect of deductible temporary difference which arises from the initial recognition of an asset or liability which at the time of the related transaction, affects neither the accounting profit nor taxable profit (or loss); and
- ▶ in respect of deductible temporary differences associated with investments in subsidiaries and associates, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

The carrying amount of deferred tax assets is audited at each interim balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Previously unrecognised deferred tax assets are reassessed at each balance sheet date and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax assets to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised, or the liability is settled based on tax rates and tax laws that have been enacted at the balance sheet date.

Deferred tax is charged or credited to the interim consolidated income statement, except when it relates to items recognised directly to equity, in which case the deferred tax is also dealt with in the equity account.

Deferred tax assets and liabilities are offset when there is a legally enforceable right for the Group to offset current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority on either the same taxable entity or when the Group intends either settle current tax liabilities and assets on a net basis or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

**3.19 Related parties**

Parties are considered to be related parties of the Group if one party has the ability to control the other party or exercise significant influence over the other party in making financial and operating decisions, or when the Group and other party are under common control or under common significant influence. Related parties above can be enterprises or individuals, including close members of their family.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS (continued)  
Quarter II 2026**29. CORPORATE INCOME TAX**

The Company has the obligation to pay corporate income tax ("CIT") at the rate of 20% of taxable profit.

The Company's subsidiaries located in Laos People's Democratic Republic and the Kingdom of Cambodia have the obligation to pay CIT at the rates of 20% of their taxable profits. They are also entitled to CIT exemption and reduction in accordance with their respective BRCs, Investment Licenses and applicable tax regulations.

The Company and its subsidiaries' tax returns are subject to examination by the tax authorities. Because the application of tax laws and regulations to many types of transactions is susceptible to varying interpretations, the amounts reported in the consolidated financial statements could change at a later date upon final determination by the tax authorities.

The current CIT payable is based on taxable profit for the current year. The taxable profit of the Group for the year differs from the loss in the consolidated income statement because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are not taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted by the interim balance sheet date.

The CIT expense for the period comprised of:
